

Fine art cards

July 8, 2017

Producing fine framed prints has to be the final and satisfying outcome for any photographer. I particularly like A2 prints framed with light oak. They look good on the right wall of any a house or apartment. For those of you that would like such a print please contact for further details, prices and paper details.

If you happen to be in Walberswick Suffolk anytime from the 12th -14th of August please pop in to the village hall <http://walberswick.onesuffolk.net/home/village-hall/> where I am exhibiting some of my work along with other artists. Framed prints will be on sale. However not all want to buy prints framed or otherwise, so I now offer fine art cards printed on fine art paper, sized at 15cm by 10 cm, with envelope and in cellophane wrapping . Each printed card is left blank inside and the back contains a link to my website.

Each card is priced at £3.00 per card plus pp. Discount of 10% on 5 cards or more .
